Eain Thet Htar Maung

Frontend Developer · Full-Stack Enthusiast

PROFILE

Fifth-year student at the University of Computer Studies, Mandalay, with a strong passion for frontend development and a growing interest in full-stack technologies. Hands-on experience with React, Node.js, Python and Java, building interactive web applications. Eager to contribute to real-world projects and keep expanding my knowledge in software engineering.

EXPERIENCE

Fifth-Year Student
2026 – Present

University of Computer Studies, Mandalay

- Building frontends with React and backend APIs with Node.js and FastAPI.
- Working on machine learning (data science) projects.

Full-Stack Developer · Team Project
2025 – 2026

University of Computer Studies, Mandalay

- Built a Java event-management and ticket-booking web application with a team of 5, including admin and user dashboards, login and sign-up.
- Stack: Java, REST API, HTML, CSS, JavaScript, Maven, JDK 17, Tomcat, MySQL. Source code on GitHub.

Web Developer · Academic Projects
2024 – 2025

University of Computer Studies, Mandalay

- Developed web applications using PHP, Python and C#; strongest in Java Spring and React.

EDUCATION

B.C.Sc (Hons) Computer Science
University of Computer Studies, Mandalay

Strong foundation in computer science principles and practical programming; continually learning new technologies.

Web Development Online Class
2021

Knowledge-sharing sessions on web development led by a Senior Software Engineer.

KEY PROJECTS

AI TaskFlow
Full-stack productivity app with GPT integration (React, Node.js).

Microservices Showcase (Docker)
Event-driven architecture with an API gateway, deployed on Kubernetes, with distributed tracing (Jaeger).
